

The Beginner's Golf Academy of San Diego is committed to teaching you how to gain the necessary skills and proper etiquette needed to play the game of golf. Within the Academy's curriculum, you will also experience award winning instruction addressing the basics aspects of the game including putting, pitching, full swing and a lesson on the golf course.

What sets the Beginner's Academy apart from other programs is the unique small group and private one on one coaching approach. All skills are introduced in a small group format of four or fewer students. Each group class is followed by a 30 minute private coaching session that will address your specific needs for each of the skills. Our goal is to make this quest a fun and informative experience, that will give you the confidence and the skills you need to start enjoying the game!
